

DUOCHECK™

HYBRID COUNTER FOR SELF SERVICE OR ASSISTED CHECK-IN

Evans | NKI's DUO-CHECK™ allows passengers to self-check-in and to drop off their own baggage. DUO-CHECK™ offers an airport maximum flexibility while maximizing revenues by reducing overhead. DUO-CHECK™ is unique in the current marketplace as it can operate in both 'Self Check-in' (CUSS) or 'manned Check-in' (CUTE). It reduces costs by ensuring counters are only manned in case required. DUO-CHECK™ is reconfigurable between CUSS, CUTE, CUPPS and SUPPS systems and can be customized in design and configuration.

CONFIGURATIONS

- High Speed Self Check In
- Ground Services Staff Manned
- Integrated with Current Systems
- Front Access: Easy Maintenance For Consumable Replacement
- Smaller Footprint
- Customized Design

FEATURES

- Boarding Pass + Receipt Printer
- Bag Tag Printer
- PC To Customer Specification (solid state)
- Passport + Barcode Scanner
- DIP Card Reader
- 12" touch screen monitor
- Near Field Communication (NFC)
