

CONTOUR | COUNTERS

AN UNIQUE & ERGONOMICALLY FRIENDLY DESIGN

Evans | NKI's Contour counters are Evans' top line counters for the most exclusive airports. Contour counters give your airport dignity, style and enhance the passenger experience. Contour counters have a user-friendly soft shape welcoming every traveller. Offered with a 10 year warranty on the GRP material, the Contour counter is manufactured with premium quality stainless steel hand bars and skirting and with a heavy duty rubber protection bumper.

The Contour counter is assembled with greatest care in our manufacturing facilities and will come fully assembled on site to minimize installation time and guarantee optimal product quality.

MODULAR SYSTEM

Contour counters can have any width between 35" (900mm) and 47" (1200mm). The counter can be used in combination with straight modules of 47" (1200mm) and can be deployed in a full check-in island, or an information counter. For secure counter areas matching side panels can be attached to create the ultimate airport or terminal counter. Combined with Evans' ergonomic chairs, Contour is the pre-eminent product in terminal counters worldwide.
