

CONTACT™

COUNTERS

STRONG, DURABLE AND EASY TO MAINTAIN

Evans | NKI's CONTACT™ counters are the optimal combination of CNC processed compact laminate panels and stainless steel elements. The CONTACT™ range can be efficiently manufactured in series, can be transported fully flat packed and can be easily assembled on site. The compact, flexible design has many options that are easy to customise to meet customer requirements. All standard counter equipment fits into the Evans | NKI's CONTACT™ and Contact+™ counter series.
