EXCLUSIVE PREVIEW

The new 918CX is a High Performance, compact and versatile 540mm by 360mm tunnel X-Ray system with exceptional image quality and excellent threat detection alert capabilities.

INDUSTRY BEST RESOLUTION & MATERIAL DISCRIMINATION

EXPLOSIVES & NARCOTICS DETECTION

LOW DENSITY IMAGE ENHANCEMENT

MATRIXING, NETWORKING & REMOTE VIEWING

SPECTRUM 4-COLOR IMAGING

918CX now can exhibit images in the Classic 4-color and the new proprietary Spectrum 4-color (SP4) option providing superior image, allowing improved security by quick and accurate identification of threats and increase in throughput.

EXPLOSIVES AND NARCOTICS DETECTION

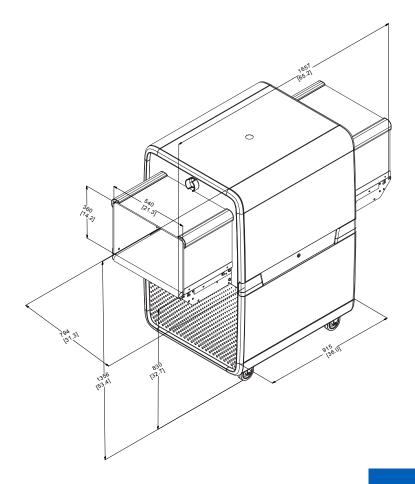

Target and NARCScan are designed to detect a wide range of explosives and narcotics respectively in real time during the scanning process by marking a potential threat on the X-ray image. Rapiscan[®] Systems detection algorithms are based on regulatory approved material analysis techniques.

DUAL MODE Z

This feature helps operators identify organics accurately and quickly either in Range Mode which highlights the areas based on selected Z-effective numbers of 7, 8 or 9 by the operator, or in Interactive Mode which gives the operator the option to display the Z-effective number in all the areas of the scanned item based on the value of the pixel. Orion[™] family are the only systems in industry that can support both Range Mode and Interactive Mode.

EUROPEAN AVIATION COMPLIANCE

918CX performance is in full compliance with the mandatory regulations (EC) No. 300/2008, (EU) No. 185/2010 and commissions decision C(2010)774 for aviation security in the European Union.
