Equipment:	X-Ray Inspection System	Fax:	(310) 349-2491
		Model Name:	Secure 1000

The equipment identified above has been evaluated for compliance with accepted standards for product safety. The standards utilized to demonstrate compliance are listed in the table below and are documented in the corresponding test report.

<i>Standard</i>	<i>Title</i>	<i>Report Number</i>
UL 61010-1: 2 nd ed	Electrical Equipment For Measurement, Control, and Laboratory Use; Part 1: General Requirements	Garwood Laboratories: 26958PS(GAR-207)
UL 187; 7 th ed.	X-Ray Equipment	Garwood Laboratories: 26958PS(GAR-207) and Medical and Health Physics Consulting Report Dated March 21, 2006

DESCRIPTION: The Secure 1000 is a computerized personnel x-ray scanner. The Secure 1000 operates by scanning the person with a low intensity beam of x-rays and collecting the reflected (backscattered) energy with sensitive detectors. The reflected energy is then used to create a computer generated image of objects hidden under the clothing. The scanner is cord connected and intended for indoor use.

RESULTS: *Garwood Laboratories, Inc., does hereby attest that all inspection(s) and/or tests have been performed in accordance with the documents referenced herein with exceptions as noted in the referenced reports. By installing the devices in a typical configuration, it was investigated for compliance to the standards listed above and was found to comply with applicable requirements.*

This Attestation shall not be reproduced, except in full, without the written approval of Garwood Laboratories, Inc.
