

INVITE™

COUNTERS

AN UNIQUE & ERGONOMICALLY FRIENDLY DESIGN

Evans | NKI's INVITE™ counters are the result of ergonomic studies and design engineering. The INVITE™ series is manufactured with special tools to curve the front panels creating their unique shape and design. Evans' STARLITE™ material with aluminium layers for worktop and countertop gives the INVITE™ counter program its unique design touch. The INVITE™ program can be transported flat packed for easy assembly on site.

INVITE™ Counter : Duo Check-In

MODULAR SYSTEM

The Evans | NKI's INVITE™ series comes in many different colours & decorations and includes a wide range of options. INVITE™ is a modular design with features which are easy to customise to meet customer requirements. It can be adapted to house special equipment. The combination of curved corners and straight elements with variable dimensions enable many different layouts.

INVITE™ is available in a variety of custom colours and logo options.
