

# EVANS ALARM LINC™

Analogue, PC and AMS integration

## ELEGANT SOLUTIONS IN VISUAL ALARMS

### Alarms with Impact

AlarmLinc takes situational awareness to a whole new level by bringing style and sophistication to visual monitoring systems. With AlarmLinc large display panels are unobtrusive during normal operations but provide prominent visual alerts in upset scenarios. Varying levels of alarm are now easily identified 'at a glance' providing a clear picture of a room's activity at all times. The flexible and customizable AlarmLinc is the future of visual monitoring systems. Activate alarms through our manual switches, use the on screen digital interface, or integrate AlarmLinc with your existing systems.

## THE EVANS ADVANTAGE

Over **30 years** of manufacturing experience

Equalling over **10,500 successful** installations worldwide

Rich and Diverse **Fortune 500** client list

Government Agencies, Oil & Gas, Airports, Air Traffic Control, Chemical Plants, Military **and More**
